In addition to the Industrial 🔆 STAR 🔆 Series, HOFFER offers a full line of precision turbines for liquid and gas, miniflowmeters for low-flow liquid and gas applications, profile insertion flowmeters for liquids and gases, as well as a complete line of electronic support equipment, including flow computers and linearizers. Contact the Applications Group at HOFFER for assistance.

NOTE: Spare parts are available for the 🜟 STAR 🔆 Series to facilitate field repairs. The factory does not provide repair service on this series since it is generally more economical to replace the flowmeter.
